DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3, 8 and 9 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Each of claims 1-3, 8 and 9 includes reference to a "quadrilateral frame body" and a "quadrilateral net". The specification as originally filed fails to support these limitations. As such, reference to a "quadrilateral frame body" and a "quadrilateral net" represents new matter in the claims. The invention was originally claimed as including a "square" frame body and a "square" net. Although a square is a quadrilateral, a quadrilateral is not necessarily a square. The limitation of a quadrilateral is significantly broader than the limitation of a square. Note that a quadrilateral covers such figures as rectangles, trapezoids, squares, etc.

Art Unit: 3636

Note that a quadrilateral has four sides and four angles. A square has four equal sides and four equal angles.

Response to Amendment/Arguments

Applicant's response filed January 16, 2003 has been fully considered. Remaining issues are detailed in the above section. Applicant's arguments are moot in view of the new grounds of rejection necessitated by amendment. The claims are not currently rejected in view of the prior art of record, however note the rejection under 35 U.S.C. 112, first paragraph.

This application contains claims 4-8 drawn to an invention nonelected with traverse in Paper No. 5. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A cushion structure with a cover member secured thereto is shown by each of Bereday (3675970) and MacCready (4561695).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3636

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
